KHACHIK KHACHATRYAN

Python Developer

About Me

As a Python Developer specializing in data trading algorithms, I leverage my background in financial and actuarial mathematics to build efficient solutions. My experience with asynchronous programming and analytical tools, including Python, SQL, and Power BI, empowers me to extract actionable insights from complex data sets. With expertise in machine learning and natural language processing (NLP) using BERT, I am passionate about applying my technical skills to tackle real-world challenges and drive data-driven decision-making.

LANGUAGE

- Armenian
- Russian
- English

EXPERTISE

- Management Skills
- Creativity
- Critical Thinking
- Problem-Solving

SKILLS SUMMARY

Technical Skills

- Programming Languages: Python
- Database Management: PostgreSQL
- Data Analysis: Pandas, NumPy, Matplotlib
- Machine Learning: Supervised Learning
- Data Visualization: Power BI
- Natural Language Processing (NLP): BERT

Mathematical and Analytical Skills

- Mathematical Analysis
- Differential Equations
- Probability Theory
- Discrete Mathematics
- Financial Mathematics
- Actuarial Mathematics
- Numerical Methods

Economics and Finance Skills

- Microeconomics
- Macroeconomics
- Finance Theory

EDUCATION

Yerevan State University
Actuarial and Financial Mathematics
2023-2026

NPUA HIGH SCHOOL
2018-2021

PRACTICE EXPERIENCE

Junior Python Developer at Fastex (Present)

Data Analyst Intern at Fastex

Converse Bank
